

FRIENDS OF THE NATIONAL INSTITUTE ON AGING

presents an educational briefing on **ADVANCING THE HEALTH OF AN AGING POPULATION: GROUNDBREAKING RESEARCH SUPPORTED BY THE NIA**

DETAILS

Thursday, June 30, 2016

2:00 - 3:00pm

Capitol Visitor's Center - SVC 201

AGENDA

Welcome & Introductions

Kathryn Jedrzewski, PhD

Chair, Friends of the NIA

Deputy Director, Penn's Institute on Aging

Advances at the NIA: From Bench to Bedside to Real-World Practice

Richard Hodes, MD

Director, National Institute on Aging &

Marie A. Bernard, MD

Deputy Director, National Institute on Aging

Precision Medicine Approaches for Treatment of Alzheimer's & Parkinson's

Corey McMillan, PhD

Research Assistant Professor of Neurology,
University of Pennsylvania

Training the Next Generation

Peter M. Abadir, MD

Assistant Professor of Medicine,

Johns Hopkins University School of Medicine,
Division of Geriatric Medicine and Gerontology

Please join the **Friends of the National Institute on Aging (FoNIA)** to hear about the groundbreaking aging research that is being supported by the National Institute on Aging (NIA). The NIA, one of 27 Institutes comprising the National Institutes of Health (NIH), leads the national scientific effort to promote the health and well-being of older adults.

Established in 1974, the NIA's mission is to:

- Support and conduct genetic, biological, clinical, behavioral, social and economic research on aging
- Foster the development of research and clinician scientists in aging
- Provide research resources
- Disseminate information about aging and advances in research to the public, health care professionals, and the scientific community

Friends of the NIA (FoNIA) is a broad-based coalition of aging, disease, research, and patient groups that supports the mission of the NIA.
